

Sentry Technology Corporation announces Sale of Library Operations

Effective January 30, 2015, Sentry Technology Corporation has reorganized its business. The library operation was sold to Custom Security Industries Inc. (CSI). Prior to the sale, CSI was Sentry's label manufacturing subsidiary. Going forward the day to day library security business will be operated under a new company, Sentry Custom Security Inc. a subsidiary of CSI.

Custom Security Industries has been in the library business for more than 25 years making specialized security labels for libraries. The sales and service teams supporting Sentry Custom Security are comprised of the same dedicated individuals who have been part of Sentry Technology Corporation for many years. By creating Sentry Custom Security as an entity dedicated solely to supporting the library market, the company will focus entirely on serving the needs of its valued customers.

Current Sentry Technology Corporation product warranty and annual maintenance agreements will be honoured by SCS and effective immediately all orders must be issued to Sentry Custom Security. Please note the office address and telephone numbers for service and sales in the U.S. and Canada are unchanged.

If you have any questions please contact either Peter Murdoch or Morton Roseman.
