

QuickCheck™ is an intuitive and easy to use patron self check-out station. The system has a touch screen monitor and offers step-by-step instructions to guide patrons through the check-out process of all library materials including CDs, DVDs, and magnetic media.

Barcode QuickCheck™ operate using traditional barcode labels. Upgrade options include EM and RFID label processing. The system offers complete compatibility with the library ILS, and provides remote monitoring and diagnostics.

Sidekick™ remote administration software is a unique tool to monitor the performance of single or multiple stations including retrieval of log files, configuration changes and software updates.

#### Features and Options:

- Selectable checkout/in and renewals
- Multiple Languages included
- Easy staff access to receipt printer
- Patron selectable e-mail or printout of receipts
- Remote Monitoring and Administration
- Integrated AV Media Unlocker
- Multiple Item Theft Detection
- Web-based QuickHelp customer service
- Custom furniture and finishes

## QuickCheck™ Barcode

**Model QC1 - Built-In**

The Sentry barcode QuickCheck™ (Model QC1) is ideal for libraries not using security gates. The system processes transactions by reading barcode labels for checkout, renewals, and check-in.

Libraries using Radio Frequency (RF) security technology can also utilize this model in combination with RF de-tuning paper receipts, or labels. Systems can be upgraded with Electromagnetic (EM) or RFID technology, and other security features such as an integrated AV media unlockers, and multiple item detection.

The system accommodates a wide range of barcode placements. The barcode is read, the checkout or renewal transaction performed, and a receipt is printed informing the patron when to return materials to the library.

The entire self-service process is fast, user friendly, and increases productivity by freeing library staff to perform other tasks.

QuickCheck™ is available in Kiosk, Desktop and Built-in configurations.
