To Whom it May Concern,

I am writing a letter of reference for the folks at Sentry and their security products. We made the switch from a different vendor in July 2020, and have been very satisfied with the quality of the products and the service provided.

We have two sets of EM (electromagnetic) security gates in place, and they do the job as well as any I've encountered in my time as a librarian. In addition, the service we have been provided has been top-notch. They are responsive to our needs and timely in returning calls or emails.

We regularly purchase security strips for books/magazines and CD/DVDs from Sentry. The cost is comparable to other sources, if not lower. We have noticed no difference in performance compared to other products.

I remain available for any questions.
