

*Kind Words From Memorial University of Newfoundland Bookstore...*

The Memorial University Bookstore recently went through an upgrade to our gate and tag security system. Dave Rosen of Sentry Custom Security, provided outstanding customer service, providing options and pricing in a clear and concise manner, with appropriate follow up throughout the process. I was also impressed with the quick and easy installation of the new controller through our local technician with the guidance of Ren Cunard, also of Sentry. Ren and Dave were readily available to answer questions and ensure the process went smoothly. We've been using the new system for about a month now and appreciate the secure feeling that comes with an updated system. Thank you to all involved!

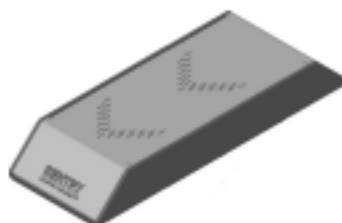

Thank you,

LuAnne
