

*Kind Words From Scotia-Glenville High School Library...***Scotia-Glenville**  
CENTRAL SCHOOL DISTRICT

Good afternoon Dave and Steve,

I just wanted to share a huge thanks to both of you!

Thanks Dave for making the order process smooth with the very specifics details we needed for the purchase order. Your knowledge of product, willingness to explain anything we asked and friendly delivery from quote to finish was exceptional.

Thanks Steve for installing in both our Middle School and High School units without a hitch. Your professional demeanor, expertise in the technical delivery and troubleshooting skills are what made the replacement of an old system to the new look too easy. I also valued the strict Covid19 safety measures you took in our school and the extra time you spent to make sure job clean-up was done well and the friendliness with our students working in the space when you were here was just so appreciated. Thanks! All our equipment now works wonderful.

We appreciate working with good vendors. In a world where thanks is not often provided, we wanted to say thanks for all you did to make this experience work out well. We look forward to working with Sentry in the future.

Have a wonderful day!
