Dave Rosen  
Library Sales Manager, Marketing Coordinator  
Sentry Custom Security

Dear Dave,

Our library just had a Sentry upgrade of our 3M 3500 library security systems with the WAM/MM-RT controller.

We are especially pleased with the reporting feature that allows our staff to generate reports of gate count activity. Also, Sentry's ability to access the controllers remotely should provide improved efficiency with system maintenance and reduce maintenance costs.

We look forward to continuing work with Sentry in providing security for our book collection.

Regards,

James Piccininni  
Dean of Libraries
